URGENT

CBD STAFF REVIEWS - RAILCORP ATTEMPTING TO GAG STAFF

The RTBU have informed RailCorp that unless they withdraw directions to members that they cannot attend Staff Reviews in the CBD we will refuse to participate.

The RTBU put the reviews on hold today following revelations that Customer Service Managers were telling staff that reviews were for invited staff only. **THIS IS NOT THE CASE.**

In an attempt to resolve the issue the RTBU demanded that RailCorp accept that their directions were incorrect and inform staff that they can attend if they wish as has been the case for many decades during staff reviews.

The result is a convoluted memo that restricts members from attending the reviews and defending their positions and the safety of passengers. This is unacceptable.

The RTBU has advised RailCorp of the existence of a dispute.

Members will be advised of further developments.
