

DAYS UNTIL AGREEMENT HAS TO BE REACHED: 26

We're talking, but on the big issues RailCorp isn't talking.

Combined Rail Unions

We want job security so we can provide a great rail service

We can't talk to you about that!

RailCorp

Combined Rail Unions

We want a 5% pay increase to keep up with cost of living.

We can't talk to you about that!

RailCorp

RailCorp and the Combined Rail Union have been in negotiations for 3 weeks now and they still can't talk to us about the big issues.

We've been putting clauses on the table, trying to get some of the technical things out of the way but we need to start having the big debates, about payrises, job security and entitlements.

RailCorp is telling us that on Monday they are going yet again to Government to discuss their "mysterious" proposal for your EA. If they can't persuade Government to allow them to start dealing with the big issues, your negotiators are going to need your help in getting them to meet their responsibility and start talking about our claims.
